Mauritius Software Craftsmanship Community

DEVELOPERS CONFERENCE 2015

23-25 April 2015, Bagatelle, Mauritius

JOIN THE FIRST DEVELOPERS CONFERENCE IN MAURITIUS!

Presentation of the Developers Conference 2015

The Developers Conference 2015, unique of its type, is carried for the first time in Maurice by Mauritius Software Craftsmanship Community (MSCC) with the support of local and international partners!

It emanates from a necessity felt by the community of developers to meet around events on techniques and computing tools of development to exchange and perfect its knowledge and know-how.

The preparation of this Conference of Developers results from the thirst of knowledge noticed during the monthly meetings of the members of the MSCC to be at the edge of Information Technologies.

Program

The Developers Conference will be held during 3 days from 23 till 25 April 2015 in Bagatelle. It comprises daily technical sessions at the Voila Hotel as well as social events in the evening at Flying Dodo.

Technical session at Voila Hotel

45
Technical sessions in 3 rooms for 3 days

Social activities & networking at Flying Dodo

23 April — Ubuntu 15.04 Vivid Vervet Release Party

24 April — Hack-a-thon Speed-typing competition

25 April — Maker Space Exhibition of DIY projects

Objectives

The aims of this conference, organised for developers by developers, are:

- To provide a space of exchange and sharing around languages, platforms and tools & techniques.
- To attract and develop high value-added skills by encouraging an innovative mindset based on opening, listening, training and learning.
- To promote careers in the Software Industry.
- Networking through meetings, business opportunities, recruitment, collaboration in a friendly atmosphere.
- To strengthen the positioning of the Software Industry both in Maurice and internationally as a business & knowledge hub between Asia and Africa.

Public

The conference is opened to all! Every person having an interest in the world of programming or Software Industry is concerned by this conference.

It is specially organized to meet expectations of the MSCC members which counts more than 200 including:

- Expert in Information Technology in Mauritius (65%): developers, project managers, engineers, managers...
- Beginners or students in computing (25%).
- Professionals from Software Industry abroad (10%).

Participation in Developers Conference 2015

You can participate in this Developers Conference as follows:

- **Call for Speakers**: this is your chance to share how you've used modern software technology to design, develop and deploy amazing applications. Deadline for submission is 28th February 2015.
